Purpose

NWIMA-2 intends to be a global workshop for researchers and engineers in Lebanon to present, discuss and share ideas about recent innovations in Materials Science. The main objective is to reinforce collaborations between national laboratories and to create a network of collaborations bringing together specialist researchers in the field of Materials Science in various Lebanese Universities within a national research group.

Thematic

NWIMA-2 is a specially designed cluster workshop and covers almost all aspects and fields of Materials Science novel research.

Round table

Collective exchange, Collaborations, Platform.

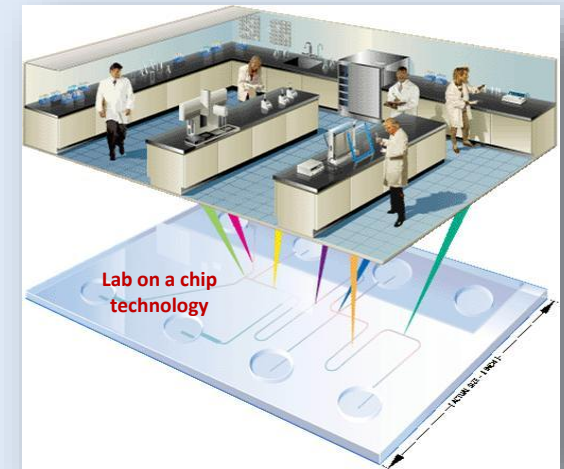

Expect results

Initiate new research cooperation activities between national universities.
Reinforce collaborations between Lebanese researchers.
Discuss the possibility of regular reception of research students in various laboratories.
Reinforce the role of the scientific community in the field of Materials that was created during NWIMA-1 @ AUB University.

2ND NATIONAL WORKSHOP ON INNOVATIVE MATERIALS AND APPLICATIONS (NWIMA-2)

THURSDAY AND FRIDAY
MAY 2 & 3, 2019

**SUBMISSION OF ABSTRACT BEFORE
MARCH 10TH, 2019**

**LOCATION: FACULTY OF SCIENCES II
CAMPUS PIERRE GEMAYEL - FANAR**
